DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim **1** and the claims that depend therefrom (**2 and 5-14**) are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,699,122. While the conflicting claims are not identical, they are not patentably distinct from each other. The limitations of instant claim 1 are taught by the elements of claims 1-4 of USPN 6,699,122- particularly the features of a *principal game and a secondary display screen that displays a plurality of a single kind of image* {disclosed as one kind of image in claims 1-4 of USPN 6,699,122} *that corresponds to a respectively associated one of the plurality of predetermined display states of the principal game.*

Examiner's Response to Applicant's Remarks

Applicant's arguments and amendments of the claims have overcome the prior art rejection cited by the examiner in the prior office action. The prior art references

Art Unit: 3714

cited by the examiner, particularly Marnell II and Farrell, do not teach the feature of "a secondary display having a plurality of display areas each for displaying a plurality of a *corresponding predetermined **single kind** of symbol image*, each such predetermined ***single kind** of symbol image corresponding to a respectively associated one of the plurality of predetermined display states displayed as a result of the principal game.*"

The examiner has updated the Double Patenting rejection, above, since application 09/268,960 has become USPN 6,699,122.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
